

**Memo of Agreement Regarding Articulation
Between Penn State Erie, The Behrend College, and
Richmond Community College (NC)**

PURPOSE

The Pennsylvania State University (PSU), through Penn State Erie, The Behrend College (PSB), and Richmond Community College (RCC) establish this Memorandum of Agreement Regarding Articulation to facilitate the matriculation of students from RCC to PSB. The purpose of the agreement is to provide a pathway for students who have successfully completed the Mechanical Engineering Technology associate degree program at RCC to transition to the Plastics Engineering Technology baccalaureate degree program at PSB. The agreement defines admission criteria and processes, evaluation of transfer credits and academic advising services to support students in their transition from RCC to the PSB.

PROCEDURES

A. Admissions Requirements

Students apply to PSB by submitting the Penn State undergraduate admissions application and official transcripts from high school, RCC and any other colleges or universities attended. The admissions application fee will be waived.

Students must complete the AAS in Mechanical Engineering Technology degree program with a minimum grade point average of 2.7 and must successfully complete (C [2.0] or higher grade) all specific courses required for entry to the PSB Plastics Engineering Technology baccalaureate degree program.

GPA is calculated from all attempted and completed courses from RCC and all colleges/universities previously attended. The GPA will be calculated using all courses and grades, including all repeated courses.

The Penn State majors included in terms of the agreement are the BS in Plastics Engineering Technology. (PLTBD).

B. Evaluation of Transfer Credits

Courses/credits with grades of C (2.0) or higher will be accepted for transfer by Penn State and will be added to the student's Penn State academic transcript.

RCC courses, evaluated as equivalent or approved as substitutions for Penn State courses, will apply to degree requirements in the student's parallel baccalaureate program, as outlined in *Addendum A*:

Course Equivalency and Substitution. The transfer guide in effect in the semester a student first enrolls at RCC will be honored by PSB, if the student completes the AAS degree program in Mechanical Engineering Technology program and successfully transfers to PSB within four years of their first enrollment at RCC. Transferability of courses not specified in the attached guides will be reviewed by the Office of Undergraduate Admissions on a case-by-case basis.

Courses/credits earned through Advanced Placement (AP), College-Level Examination Program (CLEP), or other testing programs will be evaluated according to Penn State's established criteria.

Credit evaluation for prior learning activity will be completed consistent with Penn State policy and through the process established by PSB.

C. Academic Advising and Transition

PSB and RCC will maintain course equivalency information on their respective websites and admissions and course articulation information will be made available to students through the transfer advising services at RCC.

PSB will offer an academic orientation to transferring students for the purpose of providing academic advising, and orientation to academic and technology resources, student life and career services, and financial aid and billing information.

D. Update/Report/Relationship

PSB and RCC agree to review the agreement and relevant transfer course equivalencies annually and will each assign an individual to serve as liaison for the purpose of monitoring this agreement. RCC will notify the PSB liaison upon any modification of curriculum that could impact the articulation of equivalent courses or the requirements of RCC associate programs. PSB will notify the RCC liaison of any modifications of curriculum that could impact articulation of equivalent courses or the requirements of the articulated PSB baccalaureate program. This agreement may be amended, as needed, for specific course or program articulation without affecting the currency of the master agreement.

E. Amendments and Term of Effect

This document constitutes the entire agreement and terms of understanding between Penn State on behalf of PSB and RCC, and supersedes any other prior agreements or understandings between the two parties.

The master agreement will be reviewed every five years by both parties and will be revised as necessary. For renewal all revisions are to be approved by each institution's official signatories. This master agreement may be terminated by either party upon written notice to the other party of an intention to terminate. Such notice will be effective only if given 180 days prior to the intended date of termination. In the event that this agreement is terminated, curriculum transfer guides, in effect at

the time a student first enrolls at RCC, will be honored for students who complete an AAS degree program and successfully transfers to PSB within four years of their first enrollment at RCC. All other terms of the agreement contained herein will remain in effect for the maximum of two years.
